INTRODUCING THE

T40-MH

Purpose Built Material Handlers

STANDARD FEATURES

1. Operating weight 88,000-lbs (less attachment)
2. Chassis w/ 4-point outriggers
3. Centralized greasing (under-carriage)
4. Auto lube system (upper-carriage)
5. Left side cab access ladder
6. Front & back access ladders (under-carriage)
7. TIER 4F compliant diesel engine
8. Automatic engine switch off
9. Hydraulic reversible fan
10. Active cyclone pre-cleaner (top air)
11. AWD 2-speed hydrostatic powershift transmission
12. Kessler front drive/steer axle (oscillating with hydraulic lock)
13. Kessler rear drive axle (fixed)
14. Cab with top guard
15. Impact resistant windshield front and top
16. Hydraulic cab riser with access platform
17. Cab and ground controlled auxiliary cab lowering valve
18. Cab door slides open and closed to a latched position
19. Advanced climate control (a/c, heat & defrost)
20. Adjustable air ride seat with armrest mounted joystick controls
21. Side and rear view cameras
22. Radio (usb & bluetooth)
23. 12-Volt accessory socket
24. Fire extinguisher inside the cab
25. Travel beacon with alarm
26. LED cab mounted lights (front and rear-basic)
27. LED stick mounted lights (basic)
28. TaylorTrak fleet telematics hardware
29. Standard overload warning
30. 51' Scrap handling boom/stick
31. Hydraulic valve protective guarding (stick tip)
32. Pipe rupture safety valves (boom)
33. Pipe rupture safety valves (stick)
34. Magnet controller and generator
35. Optional attachments available

† NOTE: Performance specifications are based on a machine with standard equipment. Performance specifications are affected by the condition of the vehicle, its components, and the nature and condition of the operating area. If these specifications are critical, the proposed application should be discussed with your Taylor sales representative.

†† NOTE: per ASME B30.25

Other Models:
T40-MH, T40-MH^{XD}, T50-MH, T60-MH

WE HAVE WHAT YOU NEED!

Heavy-Duty Material Handlers specifically designed for the harsh environment found in the scrap recycling industry.

2020 TAYLOR DEALER SALES AWARDS

2020 Top Dealers for Taylor Machine Works & Sudden Service, Inc.

Taylor Machine Works and Sudden Service, Inc. would like to take the time to recognize the achievements of the Taylor dealers in 2020. It was an odd year that tested everyone beyond measure, but it also showed us how dedicated our dealers are to the Taylor Brand. We are proud of the partnerships we have built with each Taylor dealer. Hal Nowell, Director of Sales, commended the top dealers by saying, "I sincerely appreciate the commitment you have shown to the Taylor brand. Your outstanding sales performance during a most unusual year of business shows how strongly you believe in the Taylor products as being the best in the industry."

Every year, Taylor Machine Works recognizes the dealer with the highest dollar volume of machine sales, and Sudden Service, Inc recognizes the dealer with the highest dollar volume of parts sales. The top-ranking dealer for Taylor Machine Works and Sudden Service, Inc. for 2020 is Hugg and Hall Equipment Company. Hugg and Hall has been the top dealer in parts sales for seven consecutive years and the top dealer in machine sales for five consecutive years.

We want to congratulate each of the following companies for their hard work dedication to the Taylor brand!

Taylor Machine Works Top Dealers:

- 1st Hugg and Hall
- 2nd Big Red, Inc.
- 3rd Taylor Northeast

Sudden Service, Inc. Top Dealers:

- 1st Hugg and Hall
- 2nd Taylor Northeast
- 3rd Cal-Lift

Dan Sills from Hugg and Hall accepting Sudden Service's Top Dealer award for 2020.

DEALER SPOTLIGHT

Big Red, Inc.

Big Red Inc., located in Charleston, South Carolina, has been a Taylor dealer for 29 years. They have received awards for being one of the top ten dealers for Taylor Machine Works and Sudden Service, Inc. for most of those years. The company was incorporated in 1992. Big Red, Inc. sells, leases, and rents Taylor Forklifts; they also sell genuine Taylor OEM parts. Big Red, Inc. has Factory Certified Technicians to handle any maintenance or repair issue. They offer preventive maintenance contracts tailored to their customers' needs. Hal Nowell, Director of Sales for Taylor Machine Works, added, "I am thrilled to have a partner in Big Red, Inc. that brings passion and expertise to our customers. Big Red, Inc. always goes the extra mile. Thank you for your dedication and support for almost thirty years".

Anthony Rhodes, the owner of Big Red Inc., earned his Taylor Chairman's Club ring in 2005. He was the first dealer principle to achieve this accomplishment. The Taylor Chairman's Club ring was established to award dealer principles of authorized Taylor dealers for outstanding annual sales of Taylor whole goods and Sudden Service parts.

TAYLOR MACHINE WORKS, INC.

5S Lean Manufacturing

2021 5S Lean Manufacturing Goals

Taylor Machine Works has been integrating lean manufacturing into its production process for several years. Lean manufacturing is the process of eliminating waste within the production process. Taylor Machine Works strives to manufacture the best lift truck with the lowest operating cost and the highest resale value in the industry. Since integrating this lean manufacturing process, Taylor Machine Works has experienced vast improvements in the organization and cleanliness of our production areas.

Taylor Machine Works 5S goal for 2021 is to focus on the first two steps in the 5S Lean Manufacturing process: sort and set in order. Sort refers to sorting through materials and keeping only the essentials to complete a given task or process. Setting in order ensures all essential items remaining are organized and have a designated place. Taylor Machine Works is preparing to transfer to a new cloud-based MRP system. Focusing on sort and set in order will aid in the transition of this new software by removing clutter and obsolete parts and organizing what remains to provide more efficient and effective work environments. Director of Industrial Engineering and Quality Control, Joe Cowart, adds, "We have implemented the 5S program across The Taylor Group of Companies for several years now, and the visual impact to our facilities is quite noticeable. Our 2021 goal to focus on sort and set in order is off to a great start."

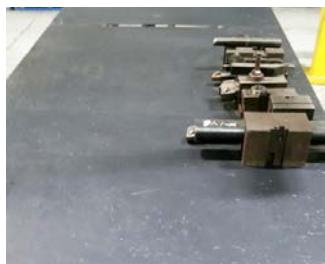

Sort and Set Process at TMW

As part of the 5S system, we sorted through materials, tools, and equipment, keeping only the essentials needed in that area. All remaining items were organized and given a designated area.

BEFORE

AFTER

TEAM MEMBER NEWS

Cody Pace Joins the Taylor Engineering Department

"On behalf of our Engineering Team, I am glad to announce our new member, Cody Pace. I am pleased to have him in our Chassis division, stated Matt Hillyer, Director of Engineering. Cody began his career with Taylor Machine Works in April of 2017 and became a member of the Engineering Department in November of 2020, after transferring from the Quality Control department. He earned his Bachelor of Science degree in Engineering from Mississippi State University in 2008 and has engineering experience in the oil industry in the Gulf of Mexico, Scotland/North Sea, the Middle East, and Central & West Africa. He will be a design engineer under the direction of Scott Stokes. Cody and his wife are residents of Louisville, MS, where they reside with their four children. His hobbies include motorcycling, collecting, fishing, and traveling.

Steve Nazary's Retirement

The Taylor Team would like to extend best wishes to Steve Nazary, who retired from Taylor Machine Works on March 12th. Steve served as an essential part of the Taylor team for 33 years. He began his career as a welder and then was promoted to inspector. For most of his career at Taylor Machine Works, Steve served as a Quality Inspector. Joe Cowart, Director of Industrial Engineering and Quality, adds, "The devotion and hard work Steve showed throughout his career has not been overlooked. The entire Taylor team will miss Steve greatly."

Jerry Smith's Retirement

The Taylor team would like to wish Jerry Smith a happy and rewarding retirement. For over 54 years, he has been a valuable member of the Taylor team. Jerry joined Taylor Machine Works in 1966 as a welder. He has held many positions such as mast rigger, mast rigger group leader, R&D tech, line assembly, machine rebuilders, large machine rigger, foreman, superintendent, and supervisor. Greg Sisson, Director of Operations, stated, "I had the privilege to work with Jerry for over 30 years. He has been a vital part of Taylor Machine Works for many years. Jerry and his knowledge of Taylor Forklifts will be missed."

THE TAYLOR GROUP OF COMPANIES WELCOMED SENATOR ROGER WICKER

U.S. Senator Roger Wicker's Visit

In March, United States Senator Roger Wicker joined us for a tour in Louisville to see our facilities and equipment. "We had a great visit with the Senator, and we were able to show him all the products that Taylor folks make in Mississippi. We thank him for taking time to be with us and also for his service to our state and our nation", said Robert Taylor, President and COO of The Taylor Group of Companies. Senator Roger Wicker stated, "Taylor Machine Works in Louisville, Mississippi, creates industrial machinery and state-of-the-art defense products for our nation's military. I got to see some of their great work firsthand during tour of their facilities today".

Retiring Friend of The Taylor Group of Companies

The Taylor team enjoyed their last dinner and visit with Matt Ruisz at Quail Ridge Conference Center. Matt is retiring from Mi-Jack Products. Taylor Machine Works and Taylor Sudden Service would like to thank Matt for his support of Taylor products and 47 years of dedication as a partner in the material handling industry.

Brittney Luke Named Chief Financial Officer

Lex Taylor, CEO of the Taylor Group of Companies, recently announced, "On behalf of the Board of Directors, I am so happy for this promotion of Brittney Luke to the Chief Financial Officer position. Not only is Brittney bright and fully capable for this job, she has career experience as Manager of Accounting and will be the first female to fill this officer position with our firm. We wish Brittney great success in this new role."

Brittney has served as Accounting Division II Manager for 17 years before assuming the Chief Financial Officer position. In 2016, she was chosen by the Mississippi Business Journal as one of the Top 50 Under 40 Business Women. Brittney is married to Shawn Luke, also employed by a Taylor company, Taylor Sudden Service as Direct Territory Manager. They have three children and three grandchildren.

TAYLOR SUDDEN SERVICE SERVICE CONTRACTS

Equipment Service Contracts

24/7 SERVICE & SUPPORT
YOUR #1 SOURCE FOR TAYLOR FORKLIFT SERVICE

Having a Service Contract with Taylor Sudden Service is probably the most cost-effective way to keep your equipment up and running. With a service contract, a factory-trained service technician will be dispatched to perform preventive maintenance, according to your machine's maintenance schedule, or to perform extended maintenance, mandated by your full-service contract.

The level of maintenance a forklift receives is a crucial factor in its performance and longevity. Taylor® Forklifts are among the most rugged and reliable machines in the industry and are designed to operate in some of the toughest conditions. However, forklifts need to be regularly serviced; there is no substitute for good maintenance. It ensures that our forklifts can perform at optimum levels; it can detect and rectify minor problems before they affect productivity and will prolong the forklift's life. At Sudden Service, Inc., we offer forklift maintenance contracts for you to choose the level of protection that is right for you.

Generator Service Contracts

Storms Will Happen BE PREPARED

Contact us for more information about our services

Being prepared before the storm is the best way to protect your home or business. Making sure your generator is in peak performance and ready for the job will keep you prepared. Taylor Sudden Service can set up scheduled service calls to keep your generator running at peak performance. Taylor services all makes and models of generators and helps keep your generator prepared for the storm.

For more information on service contracts, visit us at www.taylorsuddenservice.com

New Managers Appointed at Two Texas SSI Locations

The new Service Center Manager for our Corpus Christi location is Jimmy Humbard. Jimmy has over 18 years of management experience with a combined 30 years in OTR and Fleet maintenance training. He served in the U.S. Army as a heavy wheel mechanic for over eight years. Jimmy and his wife enjoy the outdoors, including rodeos, horses, and cattle.

Steve Ward is the new Service Center Manager for our Comfort location. Steve has over 11 years in the LTL business, where he served as branch manager in San Angelo, Houston, Corpus Christi, and Austin. He transitioned into international freight forwarding business and worked for companies in the Austin area before managing over 2.2 million feet of warehouses for a company that supported Dell manufacturing across four states. For over seven years, Steve managed forklift branches in areas across Texas's mid-region before joining Taylor Sudden Service.

TAYLOR POWER SYSTEMS GENERATOR SERIES

Select Series: Branding of Established Generator Line

Taylor Power Systems is excited to announce that the existing line of Taylor Diesel (TD) and Natural Gas/Liquid Propane (TG) generators have been branded the Select Series.

"The Select Series offers our customers the traditional Taylor Power Systems custom design, and optional accessories can be selected to meet specific installation needs and requirements. This includes choices of enclosure color, applying customer logos, multiple circuit breakers, different fuel tank sizes for diesel units along with any other customization that Taylor Power has been known for over the past 34 years," stated Zach Taylor, Operations Supervisor for Taylor Power Systems.

The Select Series offers customers a variety of optional features that can be selected before manufacturing. Whereas the Streamline Series is specifically built to reach those customers seeking a more efficient and refined generator option.

"With the recent introduction of our new Streamline Series that offers our customers a more efficient and refined generator package with limited options on accessories and customization, the Select Series continues to allow customers and contractors to specify the exact design needed to meet their power generation and appearance needs," Zach Taylor concluded.

The Select Series includes current diesel standby generator sets ranging from 8kW to 2000kW and Natural Gas/LP generators from 25kW to 800kW.

For information on Taylor Select Series Generators, visit: www.taylorpowergenerators.com

Streamline Series

In 2020, Taylor Power Systems unveiled the Streamline Series of standby generators. The Streamline Series is a line specifically built to reach those customers who are seeking a more efficient and refined generator option. These units are "streamlined" in that they offer specialized options and customer centric features. Intuitive design reduces manufacturing time throughout the process without compromising our stringent standards for durability and reliability. As a result, the cost to the customer is drastically lowered, and manufacturing lead time is substantially reduced.

TAYLOR POWER SYSTEMS RESIDENTIAL

Residential Standby Generators

Severe weather is inevitable. We deal with severe weather year-round, including tornados, hurricanes, and even ice storms. Unfortunately, severe weather tends to cause power outages, with some outages lasting days or even weeks. Being without power for a lengthy period is not only disruptive to your daily life but can cost you financially. That is why having a backup home generator is crucial, especially in areas that tend to experience extreme weather conditions that lead to frequent power outages. With a home standby generator, you will be able to power a portion or all of your home; therefore, you can live comfortably and reduce financial costs during a power outage.

Taylor Power Systems is an authorized dealer for Briggs & Stratton home generators. We currently offer a full line of Fortress Series Briggs & Stratton residential generator sets ranging from 12 KW to 48 KW. Briggs & Stratton Fortress Series generators run on natural gas or liquid propane and are generally hooked up to an existing gas line. Each Briggs & Stratton Fortress Series generator comes with an automatic transfer switch, battery, and generator pad. These standby generators are designed to kick in automatically when the power goes out so that you, as a homeowner, do not experience an interruption in power or your daily life. Contact Taylor Power Systems today and let one of our specialists size the right generator for your home.

For information on Taylor Power Systems, visit: www.taylorpowergenerators.com

Edward Zachary Appointed TN & KY Regional Sales Manager

Taylor Power Systems welcomes Edward Zachary to the team as the Regional Sales Manager for the states of Tennessee and Kentucky. Edward has been working in the power generation industry since 2000. Edward served nine years as a Power Generation Technician in the military. During this time, Edward completed multiple overseas assignments related to power generation for the United States military. After separation from the military, Edward worked for a government-contracted agency in designing generator prime power systems. He then spent time working in the generator service and rental industry before eventually transitioning into sales. Edward not only brings a varied background but also certifications in the power generation industry, as he's a Certified Journeyman Technician through the EGSA and holds an Electrical Installation Certificate from the IEEE. Edward has been married 18 years to his wife Sarah, and they have two children. Away from work, Edward spends time between gymnastics with his daughter and hockey with his son or taking family camping trips.

TAYLOR INTERNATIONAL NEW DEALERS

New Dealer in the Dominican Republic

"The Dominican Republic is a very significant and active market in the Caribbean and extremely important to Taylor International. We prioritized having a dealer that could provide our existent and new customers with first-class service in this market. IMEQ shares the same commitment to high standards as the Taylor brand, and we are excited to welcome them to the Taylor family of dealers," added Nowell.

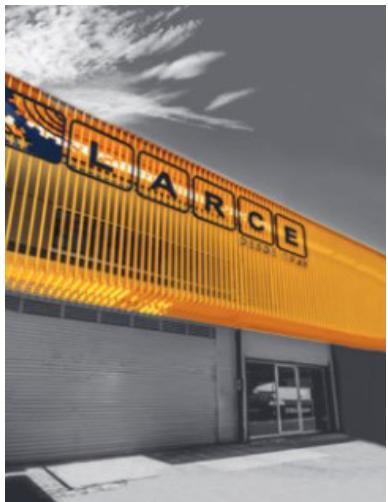

IMEQ is a leader in equipment sales, rental, and service. Like Taylor, IMEQ believes in the importance of customer confidence and satisfaction being priority one. IMEQ joins Taylor International, complete with a considerable and impressive customer base, such as DP World, Grupo Ramos, Maritima Dominicana, and Rannik, among others, and their own two branches in Santo Domingo and Santiago de los Caballeros. IMEQ also comes with an outstanding new facility for storing Taylor OEM parts and equipment and a large team of experienced technicians available to provide for customer needs as an Authorized Taylor Dealer. IMEQ was born out of the desire to revolutionize the forklift market in the Dominican Republic. The market needed a company specialized in after-market service. IMEQ strives to supply outstanding customer service on warranties, repairs, preventive maintenance, and anything customers need to have their equipment running properly.

New Dealers in South America

been a key provider of industrial, construction, and agricultural equipment sales, service, and rentals to both public and private sectors in Trinidad & Tobago, Guyana, and Suriname. Taylor will be represented by CWSG, Inc., in Guyana and CWSSNV in Suriname, both subsidiaries of CWSL Group of Companies. Like the Taylor companies, they believe in the importance of trust, customer relationships, and customer satisfaction being priority one. The CWSL Group has a highly trained group of technical professionals and a very competent sales staff dedicated to providing the highest quality of service and standards to their customers. They are ISO and STOW-TT certified. The Taylor team is proud to be represented by the CWSL Group in these two markets, which will benefit significantly with first-class industrial equipment and the Taylor brand for their growing economies.

New Dealer in Costa Rica

"We are very excited about the opportunity to expand our footprint in Costa Rica through our commercial relationship with Larce," said Hal Nowell, Director of Sales for Taylor International. "Larce's business capabilities, high standards, and exceptional reputation in the industrial equipment sector were among the main reasons we chose them to represent Taylor in Costa Rica. We share the vision and understanding that customers trust us to provide not only an excellent piece of equipment but also to maintain it through quality service and parts," added Nowell. "It is the promise of this dealer partnership between Larce and Taylor to provide the very best, most dependable, longest-lasting, and most effective service, machines, and parts for that market."

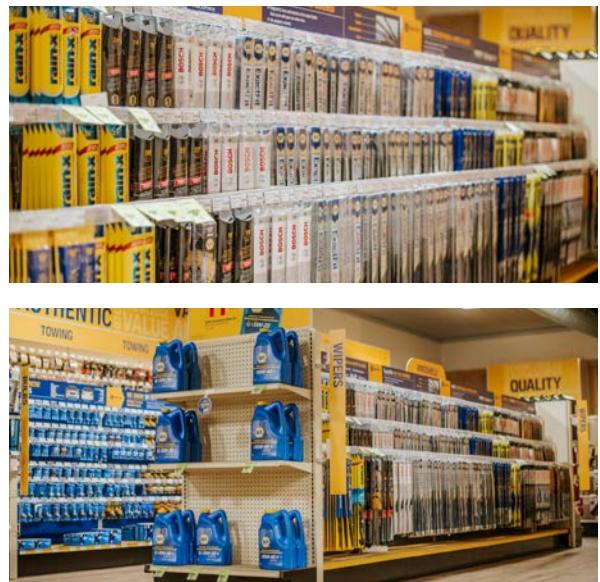

Founded in 1949, with more than 122 years of combined management experience and well-established clients such as Walmart, Kimberly-Clark, Nestle, Eaton, DHL, and many more, Larce is the player to grow the Taylor brand in Costa Rica. "Like the Taylor Company, Larce is a family-owned company, a third-generation run company, we are a dealer with a heart and soul made of aftermarket excellence," said Roberto Arce, Jr., Larce's General Manager. "At Larce, we believe people are our most important asset. They determine the customer experience. If it's poor you lose, it is really that simple."

TAYLOR'S TOOL & SUPPLY NAPA & ACE

New Store Reset: NAPA Auto Parts

Taylor's Tool and Supply is excited about the new resets in our downtown Louisville, MS store. We have recently completed a new product, and branding reset for NAPA with a bold new look in our product displays, product packaging, and checkout and inventory systems. The NAPA brand has been an important part of the Taylor history since our first NAPA affiliation in the late 1940's era.

New Store Reset: ACE Hardware

The ACE Hardware store is going through a brand-new look and feel with our new store reset offering a pleasing new shopping experience. The ACE Hardware brand is dedicated to bringing an outstanding lineup of new products to the downtown Louisville market, with brands like Ferris lawn mowers, TORO, DeWalt, Milwaukee Tool, EGO, ECHO, Yeti, Scott's lawn care, and many more.

Taylor's Tool and Supply's entire footprint is going through extensive renovation, and we are excited about the new look our store will be bringing to downtown Louisville.

IN LOVING MEMORY OF Jerry Lavaughn Donald Sr.

March 17, 1938 - February 13, 2021

There are always people that leave an impression wherever they go. Jerry Donald was one of these people. He did not just talk about values; he lived his values out loud.

Jerry Donald met Jeanette Taylor in the 1950s. They started dating when Jeanette was in the ninth grade and dated all through high school. Jerry attended Mississippi State University, where he received his degree in Industrial Management. Jerry and Jeanette married on August 3, 1958, and Jerry began working at Taylor Machine Works with his brother-in-law, Bill Taylor, and father-in-law, W. A. Taylor Sr.

Jerry Donald left his mark on Taylor Machine Works. In 1958 he began his tenure with Taylor Machine Works and was credited with having the first computer system installed. He initiated the first cost control of manufacturing and became Vice President of Manufacturing Production Control, including inventory and production costs.

Jerry left his mark on his community. In 1968, he purchased the downtown division of Taylor Machine Works, which became D & T Services and NAPA Automotive. He later added the ACE Hardware division. He was president of the Winston County Chamber of Commerce and was awarded the first Lifetime Achievement Award in 2003. He served as chairman of the Winston County Hospital Board and the Louisville Utility board. As chairman of the Winston Academy board of directors, he received an award at an MPSA meeting in Jackson as the longest-standing private school board member in Mississippi. He also served on the board of First United Bank and Bancorp South.

Jerry left his mark on his church and church family. He was an elected deacon at 25 years of age for First Baptist Church Louisville, being the only deacon at First Baptist, to date, selected at such a young age. He taught Sunday School for over 50 years, served as a Training Union leader, and served on the pastor search committee. He was involved in outreach ministries and served as chairman of the Rick Hughes Evangelistic board and evangelist John Tierney's Haiti missions.

Jerry left a mark on his family. He was a loving and doting father, grandfather, and great grandfather; and would have done anything for his family. Not only did he spend time with his children and grandchildren, but he also invested time into the lives of many other children in the community, several of whom spoke lovingly of him at his funeral.

"Jerry Donald, Uncle Jerry to me, was one of the most studious and studied Christian men I have ever known. As a child, memories of his interaction and his love of watching us have a great time will never be forgotten. As an adult, I served with him on boards, and he was always the wise one who had common sense advice when the big decision was on the table. His voice was recognizable in a crowd of any size. Uncle Jerry's discipline to keep himself fit was a trait I wish I had. The most important thing I saw in him was the love of his family and how much his family loved him. Daddy J, as he was called, was special in every way and the only solace of his loss is that he is smiling down with his son Jerry Jr. by his side. He will be sorely missed," said nephew Robert Taylor.

Lex Taylor remarks, "I remember Uncle Jerry as that "good Uncle". He was young enough in my early days when he and Aunt Jeannette lived just up the road from the plant in their tiny first house to always be willing to play with me when we visited. He will always be remembered for that bigger-than-life voice and his infectious gregarious laugh. Those who did business with Jerry Donald knew how much he loved positive cash flow and the value of a dollar. He was a quiet observer at company stockholder meetings, but when it was necessary for him to ask a question or make a comment, you better be listening. He will be missed as a cheerleader for the company and Witness for Christ Jesus. "

Many will always remember that Jerry Donald was a man that left a mark wherever he went; many will strive to be more like him; always caring more for others than himself, humble, and a devoted Christian, leaving this world a better place.

HISTORY SNIPPET

An early photograph of Taylor Machine Works at the same location we know today as Taylor's Tool & Supply. The Taylor story continues again in the same location in downtown Louisville with the fourth generation of Taylor family and employees beginning a new era.
